PIKEVILLE COLLEGE

HISTORY

FORTY-EIGHT years ago Ebenezer Presbytery appointed a committee consisting of Rev. W. C. Condit, D. D., Ashland, Kentucky, and Rev. Samuel B. Alderson, D. D., Maysville, Kentucky, to make a trip up the Big Sandy River to select a location for a school for the higher education of the youth of this section. After visiting each county seat in the valley their judgment was that Pikeville should be selected as the location for such an institution and, as the result of their report to Presbytery, the Pikeville Collegiate Institute was established. The subsequent development of Pikeville and Pike County has demonstrated the wisdom of these men in making their choice for the location of the Presbyterial School.

The success with which the institution has been crowned has been due in no small measure to the untiring efforts of Dr. Condit and his church. He was a member of the Board of Trustees from the date of its organization to the time of his death, and was ever alive to the interests of the school.

In the summer of 1889 the first building was erected and Rev. David Blythe, who had just graduated from Lane Seminary, was placed in charge as principal and also as pastor of the church. Rev. Blythe was a man of great energy, and during the three years of his incumbency the school made rapid progress and took first rank among the best schools of its grade in Eastern Kentucky. Hendrick

Hall was erected during his incumbency. A severe attack of typhoid fever left Rev. Blythe unable to continue the work. His three years of effort were not in vain; the people still inquire for him and speak in the highest terms of the work he did while here.

For the next few years the institution had its misfortunes and its "ups and downs", owing to a number of reasons. In 1896 Rev. Hamit became principal, and after two years was succeeded by Rev. T. M. Cornelison, who served as principal one year. In the summer of 1899 Rev. James F. Record took charge of the work. He continued in charge for twelve years, and in those years the attendance increased more than 350 per cent.

The first trustees elected were Rev. W. C. Condit, D. D.; Rev. W. S. Fulton, D. D.; Mr. W. M. Connolly, Mr. John A. Simpson, Mr. James Hatcher, Mr. Charles M. Parsons and Mr. F. B. Trusell, one of whom, Mr. Hatcher, is still living. Financial support received from these men in the early years, and their influence, their wise counsel and hearty co-operation have been no small factor in the success that has crowned the work in the past.

Dr. Record was away from the College four years, during which Rev. J. P. Whitehead was president. Dr. Record was called back in 1915, serving as active president of the institution until his resignation on September 1, 1932, when he was elected president emeritus by the Board of Trustees. During this period of eighteen years the institution had expanded rapidly. The first regular college work was offered in 1919 to one student, while in 1932 the college enrollment had grown to 366 students.

The preparatory department was admitted to membership in the Southern Association of Colleges and Secondary Schools in 1925, and the Junior College became a member in 1931. In this period, also, the material equipment of the school was enlarged by the purchase or erection of seven buildings, including Wickham Chapel, the Administration Building and Wickham Hall, the dormitory for young men. The endowment funds were likewise very materially increased. Pikeville College as it stands today is a monument to the consecrated, devoted service of Dr. and Mrs. Record who, more than any others, have been responsible for the material growth and widening influence of the institution.

Upon the resignation of Dr. Record as active president in September, 1932, Dean Frank D. McClelland served as temporary head of the institution until October 12, 1933, when he was elected president by the Board of Trustees.

A number of the former students and graduates of the institution have become ministers, lawyers, physicians, and dentists. Many of the young men are now in business either for themselves or as trusted employees of others. Many of them are now teaching, some in mission schools of the Presbyterian Church. Some who have graduated or been for a time students in the school have children of their own now attending the school. Some of the most active and efficient workers in the churches of Pikeville are either graduates or former students.

Such a historical sketch would be incomplete without the mention of two other persons and an institution. The persons are the Rev. James P. Hendrick, D. D., and Rev. D. McDonald, D. D.; the

institution, the Woman's Presbyterial Missionary Society of Ebenezer Presbytery. Dr. Hendrick, who was the Synodical Superintendent of Home Missions in Kentucky, was early on the ground, and by his genial disposition won many friends for the school at a time when they were sorely needed. Dr. McDonald, Dr. Hendrick's successor as Synodical Superintendent of Home Missions, did much in securing financial aid and, by his counsel and advice, in placing the school in the rank which it holds among the schools of the State. The school lost a warm friend at his death.

Too much cannot be said in commendation of the part that the Woman's Missionary Societies of Ebenezer Presbytery have had in the work of the school. The sacrifices they have made, the contributions in time and money that have been made by them and the prayers they have offered have been a constant source of encouragement alike to trustees and faculty.

For more than twenty years Mrs. William Thaw was a generous contributor, and gave largely toward the Administration Building.

Mrs. Delos O. Wickham, of New York, contributed funds for the building of Wickham Chapel, in the Administration Building, in memory of her husband. She also furnished the beautiful pipe organ which it contains, and has contributed most generously to Wickham Hall, a dormitory for young men, completed in 1929. After her death on October 22, 1933, it was found that Mrs. Wickham had bequeathed a considerable portion of her estate to the expansion and endowment funds of the College.

Purposes of the Institution

"The purpose of the promoters and founders of Pikeville Collegiate Institute was to offer an opportunity to the youth of Eastern Kentucky for the higher education at an expense within the reach of all. The very low rates at which a young man or woman may fit himself, or herself, for entrance to college, for teaching or for business, are not made possible by cheapening the school in any particular, either in its teaching force or its equipment. These low rates are made possible only through the generosity of the friends of Christian education."

The foregoing paragraph is quoted from the catalogue of Pikeville Collegiate Institute. The Articles of Incorporation were amended with the approval of the Synod of Kentucky in October, 1909, making this a chartered college, empowered by the State of Kentucky to do four full years of college work and confer degrees. The work now offered is that of the Junior College, freshman and sophomore years. It is still the purpose of the Board of Trustees to keep the expenses of a college education at the minimum, as it kept the expenses of a preparatory education at the minimum when the school was doing only preparatory work. Pikeville Collegiate Institute was ranked in the A class of preparatory schools in the State by the College Association of Kentucky. The Preparatory Department and the Junior College are now fully accredited by the Southern Association of Colleges and Secondary Schools.

While this is a denominational college it is in no sense sectarian. It does not teach the tenets of any sect. It welcomes students of all denominations

institution, the Woman's Presbyterial Missionary Society of Ebenezer Presbytery. Dr. Hendrick, who was the Synodical Superintendent of Home Missions in Kentucky, was early on the ground, and by his genial disposition won many friends for the school at a time when they were sorely needed. Dr. McDonald, Dr. Hendrick's successor as Synodical Superintendent of Home Missions, did much in securing financial aid and, by his counsel and advice, in placing the school in the rank which it holds among the schools of the State. The school lost a warm friend at his death.

Too much cannot be said in commendation of the part that the Woman's Missionary Societies of Ebenezer Presbytery have had in the work of the school. The sacrifices they have made, the contributions in time and money that have been made by them and the prayers they have offered have been a constant source of encouragement alike to trustees and faculty.

For more than twenty years Mrs. William Thaw was a generous contributor, and gave largely toward the Administration Building.

Purposes of the Institution

"The purpose of the promoters and founders of Pikeville Collegiate Institute was to offer an opportunity to the youth of Eastern Kentucky for the higher education at an expense within the reach of all. The very low rates at which a young man or woman may fit himself, or herself, for entrance to college, for teaching or for business, are not made possible by cheapening the school in any particular, either in its teaching force or its equipment. These low rates are made possible only through the generosity of the friends of Christian education."

The foregoing paragraph is quoted from the catalogue of Pikeville Collegiate Institute. The Articles of Incorporation were amended with the approval of the Synod of Kentucky in October, 1909, making this a chartered college, empowered by the State of Kentucky to do four full years of college work and confer degrees. The work now offered is that of the Junior College, freshman and sophomore years. It is still the purpose of the Board of Trustees to keep the expenses of a college education at the minimum, as it kept the expenses of a preparatory education at the minimum when the school was doing only preparatory work. Pikeville Collegiate Institute was ranked in the A class of preparatory schools in the State by the College Association of Kentucky. The Preparatory Department and the Junior College are now fully accredited by the Southern Association of Colleges and Secondary Schools.

While this is a denominational college it is in no sense sectarian. It does not teach the tenets of any sect. It welcomes students of all denominations

and those who have no church affiliations. Its endeavor is to train the young people who come to it for services in Church and State. It believes that this can be accomplished in the highest degree only when the foundations are laid in Christian character. Therefore, its purpose is the development of character founded on the eternal truths of God. To that end the study of the English Bible is required of all its students; it has only Christian men and women in its faculty; it surrounds the student, so far as that is possible, with a Christian atmosphere. We do not claim this as peculiar to this college alone, but believe it true, in a greater or less degree, of all denominational colleges. As a result of such training the General Board of Education of the Presbyterian Church says: "The high rate of 92 per cent of our home and foreign missionaries coming from our denominational colleges still continues." It also shows that 83 per cent of all the ministers of the Presbyterian Church were educated in denominational colleges.

This college has a mission peculiar to itself. Located, as it is, in the heart of the Kentucky mountains, and easy of access to the mountain counties of Virginia, West Virginia and Tennessee, it offers an opportunity to the mountain youth of these four States such as cannot be found in any other location of easy access to them. We have in these mountain counties material for leadership second to none in the United States. Much of it is buried in poverty and more in ignorance of what a college education will do for one. A college located in the mountains, as this one is, by its scholarships and means of self-support makes an education possible to the youth financially unable to go out of the

mountains for an education; by its proximity it stimulates the desire for an education and by example shows the possibility of an education.

Another purpose of the institution is to increase the efficiency of public schools. It seeks to do this by making the public school teachers more proficient. To that end it has maintained a Department of Education for the past thirty years with very satisfactory results. The methods followed in this department are those of the best teacher training institutions of our country. The course of study is adapted to meet the requirements for the Provisional Elementary certificate in Kentucky. The departments of education in other states accept work at Pikeville College as applying on the certificates which they issue.

Aim of Instruction

The aim is to lay a solid foundation for broad culture. No person can lay claim to an education whose moral as well as mental faculties have not been cultivated. The mere process of cramming does not educate, because it does not develop the faculties. Education along any line is development in that line. The purpose of true education is to fit men to live rather than to get a living. The part that school and college have in teaching men how to get a living is incidental rather than designed. It comes through the "training of the faculties already active, and awakening and developing the powers that are dormant; the arousing of the spiritual sense, the kindling of the finer emotions by coming into contact with and understanding of the relations of truth and beauty, which master minds of all times have given through the medium of music

and literature." Men who have covered a course in the classics balanced by mathematics and science arranged without thought to their practical, but wholly with a view to their cultural and disciplinary value, will not emerge into the world warped and undeveloped. They will approach what should be the ideal of all education: "The making of men who shall have a keen insight, yet broad vision; quick perception, yet sound judgment; practical wisdom, yet sensitive refinement"; ethical in their dealing with other men, yet having a righteousness that shall exceed the righteousness of the scribes and Pharisees; men whose highest happiness will be found in ministering to others rather than in being ministered unto. Students so trained are trained not only how to live, but have available assets for getting a living. Yet such men are seldom the product of a brief period of cramming. Such training takes years of careful and well-directed study from the primary grades through the completion of a college course. It is the aim of Pikeville College to give its students such training as this.

Extension of Course of Study

After a careful survey of the field, the Board of Trustees has been convinced of the unusual opportunities that could be presented through a standard four-year college in the mountains of Eastern Kentucky, and plans are being made for such an extension of the course of study. It is hoped that within the next few years funds will be obtained sufficient to enable the institution to become a four-year college, authorized to grant degrees and with faculty and equipment warranting its recognition by the various accrediting agencies.

GENERAL REGULATIONS

Entrance Requirements

Admission to the Junior College is based on a certificate showing graduation from an accredited high school with at least fifteen acceptable high school units. Following is an outline of the entrance requirements. The figures indicate the maximum and minimum number of units that may be offered in each subject.

1. BASIC UNITS. Required of all students.

English	3 units
Algebra	1 unit
Plane Geometry	1 unit

2. ELECTIVE UNITS. In addition to the basic units, a sufficient number of units to make a total of fifteen must be offered from Groups A and B, except that not more than four units may be offered from Group B.

GROUP A

English	1	Advanced Algebra	$\frac{1}{2}$ -1
Foreign Languages:		Solid Geometry	$\frac{1}{2}$
French	1-3	Trigonometry	$\frac{1}{2}$
German	1-3	Sciences:	
Greek	1-3	Biology	$\frac{1}{2}$ -1
Latin	1-4	Botany	$\frac{1}{2}$ -1
Spanish	1-3	Chemistry	$\frac{1}{2}$ -1
History and Civics:		General Science	$\frac{1}{2}$ -1
History	1-4	Geology	$\frac{1}{2}$ -1
Civics	$\frac{1}{2}$ -1	Physical Geography	$\frac{1}{2}$ -1
Political Economy	$\frac{1}{2}$	Physics	$\frac{1}{2}$ -1
Education (including		Physiology and	
Psychology)	$\frac{1}{2}$ -1	Hygiene	$\frac{1}{2}$ -1 $\frac{1}{2}$
Teaching	1	Sociology	$\frac{1}{2}$
Mathematics:		Zoology	$\frac{1}{2}$ -1
Advanced Arithmetic	$\frac{1}{2}$ -1		

GROUP B

Agriculture	$\frac{1}{2}$ -4	Home Economics	$\frac{1}{2}$ -4
Bookkeeping	$\frac{1}{2}$ -1	Music	$\frac{1}{2}$ -1
Commercial Law	$\frac{1}{2}$	Shop Work	$\frac{1}{2}$ -2
Commercial Geography	$\frac{1}{2}$	Shorthand	$\frac{1}{2}$ -1
Drawing—Freehand	$\frac{1}{2}$ -2	Surveying	$\frac{1}{2}$
Drawing—Mechanical	$\frac{1}{2}$ -2	Salesmanship	$\frac{1}{2}$

Records of college students have shown that training in some foreign language is extremely valuable in college preparation. For this reason, prospective college students are urged to take at least two units in foreign language, preferably Latin, during their high school course. Those who expect to take a classical course in college should be able to present at least four units in foreign language; those who expect to take a scientific course should be able to present two units of algebra and at least two units of science, including physics and chemistry.

Only students who hold certificates of graduation from accredited high schools will be accepted without examination. All others must report to the Dean on the first day of registration, prepared to take college entrance examinations. A student who brings credits from an accredited high school, but is not a graduate, must pass examinations in English, algebra, plane geometry and one additional unit of his own choice; a student bringing work from a non-accredited high school must pass examinations covering all of his work in such a school.

Students should not present their high school credits in person, but should have them mailed directly to the Dean by the principal of the high school. An application blank for this purpose will be mailed upon request.

Registration

The school year is made up of two semesters, fall and spring, each of eighteen weeks duration. Students are expected to register at the offices of the Dean and Secretary on or before the first day of each semester. They may not register later than the fifth day of classes, except with the consent of the instructor of each course desired to be taken. In such cases the absence allowance for each course is decreased by one-fourth for each week of absence due to late registration. No student is enrolled in classes until settlement has been made for all fees due at registration.

Classes are held five and one-half days each week, and persons who register are expected to be able to meet classes at any time between Monday morning and Saturday noon.

Sixteen hours of recitation each week is the normal load. Students registering after the first week may carry

ADMINISTRATION BUILDING AND WICKHAM CHAPEL

INTERIOR OF WICKHAM CHAPEL, SHOWING PIPE ORGAN

THE DERRIANA—DORMITORY FOR YOUNG WOMEN

STUDENTS' ROOM IN THE DERRIANA

only a partial load. Permission to carry more than sixteen hours will be given by the Dean only when justified by a previous record of high scholarship. No change in schedule may be made, and no course may be dropped, without the approval of the Dean and the consent of the instructors concerned.

Courses of Study

Four courses of study are offered leading to graduation from the Junior College: the General, Scientific, Pre-medical, and Teachers' courses. Each student is required to enroll in one of these courses; they are described below.

GENERAL COURSE

Two years of work leading toward the degree of bachelor of arts; qualifies for entrance to school of law.

FRESHMAN YEAR:

English 11, 126 hrs.
 Foreign language6 hrs.
 Mathematics or
 Science6-10 hrs.
 History 11, 126 hrs.
 Bible 13, 144 hrs.

SOPHOMORE YEAR:

English 21, 226 hrs.
 Foreign language6 hrs.
 History or Economics ...6 hrs.
 Elective14-18 hrs.

SCIENTIFIC COURSE

Two years of work leading toward the degree of bachelor of science; qualifies for entrance to school of law.

FRESHMAN YEAR:

English 11, 126 hrs.
 Mathematics 11, 126 hrs.
 Science10 hrs.
 History 11, 126 hrs.
 Bible 13, 144 hrs.

SOPHOMORE YEAR:

English 21, 226 hrs.
 Foreign language6 hrs.
 Science6-10 hrs.
 Elective10-14 hrs.

PRE-MEDICAL COURSE

Two years of work meeting the requirements for entrance to medical and dental college.

FRESHMAN YEAR:

English 11, 126 hrs.
 Mathematics or
 German6 hrs.
 Chemistry 11, 1210 hrs.
 Biology 11, 1210 hrs.

SOPHOMORE YEAR:

Chemistry 21, 226 hrs.
 Physics 21, 2210 hrs.
 Bible 23, 244 hrs.
 Elective12 hrs.

TEACHERS' COURSE

Two years of work meeting the requirements for the Provisional Elementary certificate in Kentucky.

FRESHMAN YEAR:

English 11, 12	6 hrs.
Education 12, 19	6 hrs.
Education 28	2 hrs.
Mathematics 14	3 hrs.
History 21 or 22	3 hrs.
Geography 11	3 hrs.
Chemistry 11 or Biology 11	5 hrs.
Bible 13, 14	4 hrs.

SOPHOMORE YEAR:

English 21 or 22	3 hrs.
English 23	3 hrs.
Education 25	3 hrs.
Education 27	2 hrs.
Education 16	2 hrs.
Psychology 21 or 22	3 hrs.
History 23	3 hrs.
Elective	13 hrs.

Teachers' Certificates

The Junior College is recognized by the Kentucky Department of Education as a class A institution with the privilege of recommending for certificates those students who have satisfied the legal requirements. To qualify for a certificate a student must be at least eighteen years of age, of good character, must have presented the required number of acceptable high school units for college entrance and must have satisfactorily completed the course prescribed for the certificate.

The Provisional Elementary certificate is obtainable by the completion of sixty-four semester hours of college work, including required subjects as listed above under the Teachers' Course. This certificate is valid in any elementary school in Kentucky for a period of three years, and may be renewed for a period of three years on evidence of two years of successful teaching or sixteen college hours. It may be renewed thereafter for three year periods on sixteen college hours earned during the life of the certificate.

Students who pursue the two year Teachers' Course and expect to be recommended for a certificate must complete all requirements for Junior College graduation, including participation in the graduation exercises.

Any certificate in effect on September 1, 1935, will continue to be renewed, reissued or extended under provisions in force at the time of issuance of the certificate.

The State Department requires a fee of two dollars for each certificate issued and a fee of one dollar for each certificate renewed.

The Departments of Education of Virginia and West Virginia accept the work of Pikeville College as applying on the teachers' certificates issued in these states.

Absence Regulations

Regular attendance at classes and at the daily chapel services, and conformity to the regulations of the institutions are prerequisites for the granting of college credit. The following regulations on attendance govern the issuance of credit:

1. Students are expected to attend all classes except in case of illness, death in the immediate family, or other emergency. To cover these necessary absences an allowance is made of the equivalent of one week's absence in each subject per semester. This allowance carries with it the obligation to make up all work missed. Three times tardy count as one absence.

2. Each absence in excess of the allowance for any subject deducts from the final grade of that subject at the rate of one letter for each week's absence in excess. For example, five excess absences from a five-hour subject would lower a semester grade of B to C.

3. Absences count double on days immediately preceding and following vacations and special holidays.

4. A student may not drop any subject without the consent of both the instructor and the Dean.

5. To cover necessary absences, an allowance is made of ten absences from chapel service each semester. Each chapel absence for which a valid excuse is not presented to the Dean, counts double. Each excess absence lowers the grade of each subject one-tenth of a letter.

6. Students registering after the first week of the semester lose one-fourth of the absence allowance in each subject for each week of absence due to late registration.

Absences by members of college organizations on authorized trips will not be counted. The work missed, how-

ever, is required to be made up, at the direction of the instructor.

The above regulations may be modified by the Dean in exceptional cases where they would work an evident injustice.

System of Grading

At the end of each semester (eighteen weeks) a report of the student's work is sent to the parent or guardian. Reports of freshmen are sent also to the principals of the high schools from which they graduated. The following letters indicate a passing grade, and are not subject to change:

- A EXCELLENT
- B GOOD
- C AVERAGE
- D POOR

Subjects receiving a grade of D will not give credit toward graduation or the issuance of a certificate unless the student has a standing of 1.00 or above (average of C). The following grades are not passing and do not carry credit:

- E CONDITIONED
- F FAILED
- I INCOMPLETE

E may be raised to D by re-examination with a grade of C or better, within six weeks after the opening of the following semester. I, if excusable, may be raised to the proper grade; if inexcusable, may be raised to D, by completion of the work. A student with a standing of less than 1.00 (average of C) is placed on probation for the following semester.

Requirements for Graduation

The general requirement for graduation from the Junior College is sixty-four semester hours of work in either the General, Scientific, Pre-medical or Teachers' course. In addition, the student must have at least sixty-four quality credits, based upon the grade of work done. Quality credits are awarded as follows:

- Grade of A gives three quality credits per semester hour.
- Grade of B gives two quality credits per semester hour.
- Grade of C give one quality credit per semester hour.
- Grades of D and F give no quality credits.

For example, a semester grade of B in a five-hour subject would give ten quality credits; a grade of C in a three-hour subject would give three quality credits.

The scholastic standing of a student is the ratio of the number of quality credits to the number of semester hours taken. For example, a student carrying sixteen semester hours and receiving thirty-two quality credits in one semester, would have a standing of 2.00 (average of B) for that semester. A standing of at least 1.00 (average of C) is required for graduation, or recommendation for a certificate.

Summer Session

A summer session of six weeks is held each year, in which classes are offered which duplicate those of the regular school year. The subjects given are limited to those for which there is sufficient demand. A subject carrying three semester hours credit meets six seventy-five-minute periods each week for six weeks. Six semester hours is the normal load, or an average of two classes per day during the session.

Students who take college work in the summer session must satisfy the usual college entrance requirements, and are expected to register on the opening day of the session. Students will not be admitted after the first week of classes.

Transfer of Credits

Upon application, a student who leaves the College is issued a certified transcript of his record, without charge. Application for a certificate is considered the equivalent of a transcript. A fee of one dollar is charged for each additional copy.

A transcript of credits will not be issued to a student whose account with the College has not been settled.

DEPARTMENTS OF INSTRUCTION

Following are brief descriptions of the subjects offered in the various departments, with the amount of credit each carries stated in semester hours. Subjects ordinarily taken in the freshman year are numbered from eleven to nineteen; those ordinarily taken in the sophomore year from twenty to twenty-nine. In the case of subjects continuing throughout the year, the work of both semesters is described under one heading, and the number of semester hours stated refers to the credit given for each semester.

The College reserves the right to omit from the schedule any subjects for which there may not be sufficient demand, or which for any other reason it may be deemed inadvisable to offer.

ANCIENT LANGUAGES

Greek 11, 12: Elementary Greek.

A thorough study of the elements of the language. In the spring semester Book I of Xenophon's *Anabasis* is read, with further drill in forms and syntax and composition. **Three hours, each semester.**

Greek 21: Xenophon.

Books II, III and IV of the *Anabasis*, accompanied by grammar review. **Three hours, fall semester.**

Greek 24: Homer.

Books I-III of Homer's *Iliad*. **Three hours, spring semester.**

Latin 11, 12: Livy and Cicero.

Selections from Livy, Books XXI and XXII, and Cicero's *De Amicitia*. Careful study of forms and constructions with exercises in Latin prose. **Three hours, each semester.**

Latin 21, 22: Horace, Terence, Tacitus.

Selected Odes and Satires of Horace, the *Agricola* of Tacitus, a play of Terence. A study will be made of the literature and the history of the three periods represented.

Three hours, each semester.

BIBLICAL HISTORY AND LITERATURE

Bible 13, 14: Old Testament History.

A historical study of the development of the Jewish nation during the Old Testament period. Especial attention is given to divine influence in the shaping of the lives of men and of the nation.

Two hours, each semester.

Bible 23, 24: New Testament History.

A historical study of the life of Christ and of the early Christian Church. The fall semester is taken up with an intensive study of the harmony of the four Gospels. In the spring semester a study is made of the Book of Acts and several of Paul's epistles.

Two hours, each semester.

EDUCATION AND PSYCHOLOGY

Education 12: Classroom Management.

A study of the correct principles to be followed in classroom procedure; problems of discipline; correlation of classroom and community life. These principles are illustrated through directed observation in the Training School.

Three hours.

Education 16: Health Education.

A course primarily for teachers, dealing with the principles of school health and hygiene.

Two hours.

Education 19: Teaching the Common School Branches.

The purpose of this class, which is based upon the state course of study, is to consider methods of organizing and presenting the subjects taught in the elementary school, using the Training School for observation of modern teaching methods.

Three hours.

Education 25: Directed Teaching in the Elementary Grades.

Actual teaching in the Training School under the supervision of a critic teacher. Daily lesson plans are required and conferences of critic and student teachers are held weekly. Prerequisite: Completion of Freshman requirements in Teachers' course, with standing of 1.00.

Three hours.

Education 27: Public School Music.

A study of the fundamentals of music and the methods of teaching it in the elementary grades.

Two hours.

Education 28: Public School Art.

A consideration of the fundamental principles of drawing and design, together with materials and methods for the elementary grades.

Two hours.

Psychology 21: General Psychology.

An introduction to psychology, especially recommended to

students in Education. Accepted as credit in Education for the issuance of certificates. Open to Sophomores only. **Three hours.**

Psychology 22: Educational Psychology.

A study of the learning process and a survey of the field of psychology from the standpoint of the teacher. Open to Sophomores only. **Three hours.**

ENGLISH LANGUAGE AND LITERATURE

English 11, 12: English Composition.

A study of the fundamentals of correct and effective English with considerable practice in writing. Practical forms of composition are stressed. The principles of oral expression are also studied and some practice is given in speech making.

Three hours, each semester.

English 21, 22: History of English Literature.

A thorough survey of the development of English literature, from Anglo-Saxon times to the present. The process of evolution of striking literary types, such as the drama, the essay and the novel, is given particular attention.

Three hours, each semester.

English 23: Children's Literature.

A course for prospective teachers, dealing with the types and sources of literature particularly suited to pupils of the elementary grades and junior high school. Collateral readings constitute a portion of the course of study.

Three hours.

English 25: Public Speaking.

An introductory course in speech. Voice technique is studied as far as time permits. Practice in different types of reading and speaking is given. One debate is prepared and delivered.

Three hours, fall semester.

HISTORY AND ECONOMICS

History 11, 12: History of Western Europe.

A general outline of the development of Europe from the German invasion of the Roman Empire to the present time.

Three hours, each semester.

History 21, 22: History of the American People.

A survey of the history of the entire New World from the fifteenth century to the present time.

Three hours, each semester.

History 23: American Government.

A survey of the entire field of American government, local, state and national; the organization and influence of political parties; ideals and functions of government.

Three hours.

Economics 21, 22: Principles of Economics.

A course designed to acquaint the student with the fundamental concepts, principles and problems of the economic world. Considerable reference work is required. **Three hours, each semester.**

HOME ECONOMICS

Home Economics 13a: Textiles.

A study of textile fabrics, their composition, construction, characteristics, adulteration, quality and uses. One hour of lecture, two hours of laboratory, each week. Fee, \$2.00.

Two hours, fall semester.

Home Economics 13b: Elementary Clothing.

The use of the sewing machine, the study of commercial patterns and their uses; the fundamental principles of clothing construction—taught through the making of simple garments. Home Economics 13a should proceed or accompany this class. One hour of lecture, four hours of laboratory, each week. Fee, \$1.00.

Three hours, fall semester.

Home Economics 12a: Source and Cost of Foods.

A study of the production, transportation, storage and distribution of food as it affects the cost. Two hours of lecture, each week.

Two hours, spring semester.

Home Economics 12b: Elementary Foods.

A study of the nutritive value, care and preparation of food. One hour of lecture, four hours of laboratory, each week. Fee, \$2.50.

Three hours, spring semester.

Home Economics 19: Home Economics for Boys.

A study of the essentials of selection and cost of foods; selection, care and repair of clothing, and family relationship. Fee \$1.00.

Two hours.

Home Economics 21: Meal Planning and Table Service.

Planning, preparing and serving family meals, with emphasis on food values and costs. Prerequisite: Home Economics 12b. Two hours of lecture, four hours of laboratory, each week. Fee, \$5.00.

Four hours, fall semester.

Home Economics 22: Dressmaking.

The alteration and adaptation of commercial patterns; the construction of foundation patterns and their use in making appropriate garments of wool and silk; and a study of the clothing budget. Prerequisite: Home Economics 13b. Two hours of lecture, four hours of laboratory, each week. Fee, \$1.50.

Four hours, spring semester.

MATHEMATICS

Mathematics 11: College Algebra.

Beginning with a rapid review of quadratic equations, the work embraces the binomial theorem, the theory of equations, permutations and combinations. **Three hours.**

Mathematics 12: Plane Trigonometry.

A grounding in the definitions of the trigonometric functions and the development and use of formulae, through the laws of sines, cosines and tangents. **Three hours.**

Mathematics 14: The Teaching of Arithmetic.

A review of the essentials of arithmetic together with a careful study of the best methods of presenting the subject to pupils in the elementary grades. Prerequisite: A working knowledge of arithmetic as shown by an examination given early in the course. **Three hours.**

Mathematics 21: Analytic Geometry.

The elements of plane analytics including the transformation of coordinates, the geometry of the conic sections, and higher plane curves with an introduction to the derivative and to solid analytics. Prerequisites: Mathematics 11, 12. **Five hours.**

MODERN LANGUAGES

French 11, 12: Elementary French.

A course for students beginning the study of French. Pronunciation, phonetic transcriptions, grammar, conversation, reading of short stories and letters. Correspondence is carried on with students in France. **Three hours, each semester.**

French 21, 22: Intermediate French.

A systematization and rationalization of French grammar. Fluency and accuracy in the execution of all constructions are developed by the laboratory technique, conducted in French, and by correspondence with students in French-speaking countries. Intensive study of literary masterpieces including one play; reading of newspapers and stories. Prerequisite: Two years of high school French or French 11 and 12. **Three hours, each semester.**

German 11, 12: Elementary German.

A course for students beginning the study of German. Grammar, reading of easy prose, including readings in science. **Three hours, each semester.**

German 21, 22: Scientific German.

Grammar review. Reading and translation of current scientific German with view to acquiring vocabulary necessary for independent reading along scientific lines. **Three hours, each semester.**

MUSIC

Believing that an education is not complete without some knowledge of music, the College will continue to offer the same splendid instruction that has been available in the past.

Piano and Pipe Organ

Private lessons in piano are given under competent instructors. Pipe organ is offered to students who desire it, provided in the opinion of the instructor they have reached the required proficiency in piano. Each student is required to appear in recital twice during the year. Classes in Harmony are organized when there is sufficient demand.

Voice

Private lessons in voice are offered, under a well trained and capable instructor.

Glee Clubs

Boys' and girls' glee clubs are open to all students who desire this type of training, without charge. Each glee club meets two hours a week, and a credit of one half semester hour each semester is given those students whose attendance and performance are satisfactory.

Band and Orchestra

A band and an orchestra are maintained and are open without charge to students who play instruments. A credit of one half semester hour is given those students whose attendance and performance are satisfactory, in either organization.

NOTE: Students may carry work in glee club, band and orchestra simultaneously, but will not be granted more than one half semester hour of credit for such work in any semester.

PHYSICAL EDUCATION

Classes in physical education are available for young men and young women. Each class meets two hours a week, and a credit of one half semester hour each semester is given those students whose attendance and performance are satisfactory.

SCIENCE

In science courses which include laboratory work a fee is required in order to cover the cost of materials and the use of apparatus. This fee is payable at the beginning of each semester, and is not refunded. Apparatus which is broken or lost is charged to the student, and is paid for at the close of the semester.

Biology 11, 12: General Biology.

The object of this course is to gain an understanding of the large problems common to zoology and botany. The approach is

thus obtained for the broad knowledge desirable for a liberal education, and for the more advanced work prerequisite to the study of medicine, forestry, etc. Students who plan to take this class should provide themselves with clothing suitable for field trips. Three hours of lecture and recitation, four hours of laboratory, each week. Fee, \$3.00 each semester. **Five hours, each semester.**

Chemistry 11, 12: General Chemistry.

The fundamental principles of theoretical chemistry, together with a study of the most important metals and non-metals. The laboratory work of the spring semester includes practice in elementary qualitative analysis. By means of separate laboratory sections, this class is adapted to those who have, as well as those who have not, had high school chemistry. Three hours of lecture and recitation, four hours of laboratory, each week. Fee, \$4.00 each semester.

Five hours, each semester.

Chemistry 21, 22: Introduction to Organic Chemistry.

A course designed especially for students who contemplate the study of medicine. The fall semester is devoted to aliphatic, the spring semester chiefly to aromatic compounds. The laboratory work deals with the preparation, purification and analysis of simple organic compounds. Prerequisite: Chemistry 11, 12. Two hours of lecture and recitation, three hours of laboratory, each week. Fee, \$4.00 each semester.

Three hours, each semester.

An extra hour of laboratory credit in Chemistry 21, 22 will be arranged for those who desire it.

Geography 11: Principles of Geography.

A study of the basic principles underlying the science of geography, and of its relation to the physical and economic development of man. Materials and methods for teaching the subject in the elementary grades are considered.

Three hours.

Physics 21, 22: General Physics.

A course in the fundamental principles of physics, the development of its laws and the practical application of them. The theories of mechanics, heat, magnetism, electricity, sound and light are presented in lecture and demonstration, and are supplemented by practical work in the laboratory. Four hours of lecture and recitation, two hours of laboratory, each week. Fee, \$2.50 each semester.

Five hours, each semester.

PREPARATORY DEPARTMENT

The Preparatory Department is organized as the Senior High School, composed of the junior and senior classes, the Junior High School, composed of the ninth and tenth grades, and the Training School, composed of the elementary grades. The four years of high school work are fully accredited in class A by the State Department of Education and the Southern Associations of Colleges and Secondary Schools.

Courses of Study

JUNIOR HIGH SCHOOL

NINTH GRADE:

English I
Algebra I
Biology
Latin I
Bible I (spring semester)

TENTH GRADE:

English II
Algebra II
Latin II
Ancient History
Bible II (fall semester)

SENIOR HIGH SCHOOL

Classical Course

JUNIOR YEAR:

American Literature
Plane Geometry
Latin III
Bible (spring semester)
Modern History
or French

SENIOR YEAR:

English Literature
Latin IV
Bible (fall semester)
American History
Civics
Home Economics
or French

Scientific Course

JUNIOR YEAR:

American Literature
Plane Geometry
Bible (spring semester)
Physics
or French
Modern History
or French

SENIOR YEAR:

English Literature
Chemistry or
Home Economics
Bible (fall semester)
American History
Civics
Solid Geometry
or French

A total of sixteen units above the eighth grade is required for graduation from the Senior High School. A

unit may be defined as the equivalent of one subject taken through the entire school year. Four subjects, with Bible one semester each year, is the normal load. Five subjects may be taken only when the student has evidenced scholarship above the average. No credit will be given for less than one unit of foreign language.

Slight modifications of the above courses of study will be allowed in the case of students bringing credits from other high schools. In such cases, however, the minimum requirements for graduation are as follows:

English	3½ units
Algebra	1½ units
Plane Geometry	1 unit
Foreign Language	2 units
History and Civics	1 unit
Bible	¼-1 unit

In science courses requiring laboratory work an extra fee is charged to cover the cost of materials and equipment. Breakage is charged to students responsible. The fees are as follows:

Biology	50 cents each semester
Chemistry	\$3.00 each semester
Home Economics	\$2.00 each semester
Physics	\$1.50 each semester

System of Grading

Monthly reports are sent to the parent or guardian of students in the first to the ninth grades. Reports of students in the tenth grade and in the Senior High School are mailed at the close of each semester.

Passing grades are indicated as follows:

- A Excellent (90-100)
- B Good (80-89)
- C Average (70-79)

Grades below passing are indicated thus:

- D Unsatisfactory; conditioned (60-69)
- I Incomplete
- E Failure

D may be raised to C by re-examination within six weeks after the opening of the following semester, or in any other way designated by the teacher. I, if excusable, may be raised to the proper grade; if inexcusable, may be raised to C, by completing the work.

For closer grading, a plus (+) or minus (—) sign may be attached to the letter. For example, C+ would indicate 77-79; C, 73-76; C—, 70-72.

GENERAL INFORMATION

LOCATION

Pikeville College is located at Pikeville, Kentucky, the metropolis of the Big Sandy Valley, on the Chesapeake and Ohio Railroad, one hundred and ten miles south of Ashland, Kentucky; and on Federal Highway No. 23 connecting Detroit, Michigan, and Miami, Florida. The C. C. & O. connection with the C. & O. at Elkhorn City gives easy access by rail from Virginia and Eastern Tennessee. Taxi service connects with the Norfolk and Western Railroad at Williamson, West Virginia. Bus lines make connections at Jenkins, Kentucky, and Ashland, Kentucky, so that Pikeville is easily accessible from the surrounding counties of Kentucky, Virginia and West Virginia. Situated in the Sandy Valley, surrounded by the foothills of the Cumberland Mountains, it would be difficult to find a more beautiful and healthful location for a college town.

BUILDINGS

The Administration Building, which was completed in 1926, contains offices, seventeen large class rooms, laboratories, library, and an auditorium which will seat four hundred. An Estey Pipe Organ has been installed in the auditorium. The chapel, or auditorium, together with the organ, is the gift of Mrs. Delos O. Wickham in memory of her husband, whose name it bears. Mrs. William Thaw was another generous donor to the building. All of the money which came to Pikeville College from the Kentucky Presbyterian Educational Movement was used in the construction of this building.

There is, in addition to the Administration Building, a good, substantial brick school building containing recitation rooms, library and reading room, chapel and principal's office. This building is used by the Junior High School and the Training School.

Hendrick Hall, a frame building, houses several of the faculty.

Wickham Hall, a dormitory for young men, is located beside the Administration Building on the hill overlooking

Pikeville. This is an excellent building of brick, concrete and steel, consisting of three stories and basement, entirely fireproof throughout. It contains rooms to accommodate ninety-six young men, in addition to a kitchen, cafeteria, rooms for faculty supervisors, large bathrooms on each floor and a well-furnished recreation room. The building is heated by steam, electrically lighted, and equipped with apparatus to maintain a constant supply of hot water. The cost of this building, fully equipped, was approximately \$100,000.

The Derriana, a Christian home for women, is a brick and stone structure of four stories, including basement. It is heated by steam, lighted by electricity, has hot and cold water, bath rooms and all modern conveniences. It would be difficult to find a dormitory more conveniently arranged and more completely equipped for the comfort of young women. It was the gift of Mr. John A. Simpson in memory of his sister, Lucinda Derriana Simpson. The purpose of the donor was to erect a building in which the occupants would find a home of Christian culture and refinement during their school life. The social and home life with which the students are surrounded is calculated to lead to that Christian culture and development so essential to the highest type of womanhood. The building was thoroughly renovated, revarnished and redecorated, and additional bathrooms installed, in the summer of 1930. The dormitory site is on an elevation overlooking the town, affording a most beautiful view of mountain scenery. It is surrounded by some four acres of ground.

There is a commodious frame gymnasium, which meets the needs for basketball and other indoor sports. The Laughlin Cottage, a beautiful brick residence, was erected in 1922 for use in connection with the work of the Home Economics department.

RELIGIOUS LIFE

As stated in another place, the school was established, is supported and is controlled by the Presbyterian Church, U. S. A., but is non-sectarian. While students receive regular and systematic instruction in the English Bible, the tenets of no church are taught. All students are required to be present at the chapel exercises of one-half hour each day.

Each year, soon after the opening of the spring semester, a series of student meetings is held. These services are in

charge of some outstanding Christian leader who, in addition to his daily addresses, strives to meet in personal conference each of the students; they have proven most helpful in quickening the spiritual life of the school.

There are six churches in the town: Presbyterian, Southern Methodist, Methodist Episcopal, Christian, Baptist and Episcopalian. The students receive a warm welcome at any of the churches and each student is expected to be present at some one of them each Sunday. The aim of the religious life of the school is to lead the student to the Lord Jesus Christ, to develop a high type of Christian character and a potential Christian leadership for both Church and State.

ATHLETICS

Pikeville College believes in the training of the body as well as the mind, and in accordance with this belief makes provision for the physical development of its students. Intramural sports along competitive lines between classes are organized in basketball, diamond ball, volleyball, tennis and other games.

The college basketball team, known as the "Bears," has completed a successful season again this year, under the direction of a well trained and competent coach. All matters pertaining to athletics are under the general supervision of the Athletic Council, composed of representative of the faculty, alumni and student body.

OTHER STUDENT ACTIVITIES

In addition to athletics, the student at Pikeville College finds a variety of valuable extra-curricular activities. Among them may be mentioned the glee clubs; the band and orchestra; "The Record," the school newspaper; "The Highlander," the college year book; debating and declamation teams; the Science Club; the French Club; the Young Women's Christian Association; the Young Men's Christian Association and other social and religious organizations. All the school activities are under the supervision of members of the faculty. Students are encouraged to take an active part in at least one extra-curricular activity, but are limited in the number in which they may engage, in order that their studies may not suffer thereby.

LIBRARY

The Library contains about 4,000 volumes, carefully chosen with regard to the interests and the needs of the students. The reading room is furnished with daily and weekly papers and leading magazines. A trained librarian is in charge and is ready to give valuable aid to students in their reference work.

GOVERNMENT

The discipline is gentle but firm. Each student is expected to conform cheerfully to the requirements of the school, and no student will be allowed to remain in the school whose influence, in the judgment of the Faculty, is detrimental to the interests of the institution. Parents who are not willing that their children should obey promptly are requested not to send them to us. Students are required to conduct themselves properly at all times, whether on or off the campus, and to pay for any property that may be destroyed or damaged by them. The College reserves the right to dismiss, without any refund of fees, any student whose conduct is unsatisfactory. All students sign the following pledge upon registration.

Student Pledge

I hereby pledge myself to the following conditions upon which I am admitted as a student to Pikeville College:

1. I promise to conform willingly to all of the regulations of the College.
2. I promise to abstain from the use or possession of alcoholic beverages of any kind, either on the campus or elsewhere, while a student of this College.
3. Unless I live at home, I agree to room and board only at places definitely approved by the College authorities, and subject to inspection by the College at all times.
4. If I room in a College dormitory, I agree to board regularly at the College Cafeteria.
5. I understand and agree that any infraction of the above regulations, or any conduct which in the opinion of the school authorities is detrimental to the interests of the institution, will make me liable to immediate dismissal from the College without any refund of fees.

ENDOWED FUNDS FOR STUDENT AID

The Elizabeth A. Smith Scholarship Fund, endowed with \$2,000 by her daughter, Mrs. Mary Smith Pegan.

The Mrs. Augusta Dana Chase Scholarship Fund, endowed with \$1,000 by the Southern Industrial Educational Association through the Philadelphia Auxiliary.

The Clara E. Simons Scholarship Fund, endowed with \$500 by Mr. and Mrs. Conrad Simons.

The George N. Reed Scholarship Fund, endowed with \$1,000 from the estate of the late George N. Reed.

The George A. Taylor, Jr., Book Fund, endowed with \$1,000 by the First Presbyterian Church of Wilksburg, Pennsylvania.

The Mrs. Rosanna Powell Loan Fund, endowed with \$100.

The Edith Loan Fund, endowed with \$2,105.

The Park Presbyterian Bible School Loan Fund, endowed with \$100.

The Robert A. Cochran Loan Fund, endowed with \$5,000 from the estate of the late Robert A. Cochran.

The W. A. Patterson Loan Fund, endowed with \$100 from the estate of the late W. A. Patterson.

PRIZES

The Dr. W. C. Condit prize of a gold watch is given to that member of the graduating class of the Academy who has made the highest average for the last three years of the course. Attendance and deportment, as well as scholarship, are taken into consideration in awarding this prize. This prize will not be awarded if no member of the class has made an average of at least 90 per cent for the three years preceding.

The Margaret E. Record prize of \$20 in gold, is given to that member of the graduating class in the preparatory department who has made the second highest grade for three successive years.

Beginning with commencement 1937, these prizes will be transferred to the junior college graduating class, as the result of action taken by the board of trustees on May 31, 1934.

Expenses

The generosity of friends of Christian education, and assistance received from organizations of various kinds, enable the College to offer young men and young women education at about half the actual cost of it to the school.

Registration is not complete and no student is enrolled in any class, until satisfactory settlement for all fees due at the opening of the semester, including room rent, tuition, laboratory and activity fees, has been made with the Secretary.

TUITION AND SPECIAL FEES

Tuition for college students is \$37.50 per semester; for students in the Junior and Senior High Schools, \$16.00 per semester, payable in advance. Since the expenditures for a semester are based largely upon the enrollment at the beginning of that semester, tuition will not be refunded after the first week. When, however, a student is compelled to be absent from school on account of proven illness, for more than nine weeks, one half of the tuition will be credited toward the tuition of the same student in a subsequent semester.

All students pay at registration, each semester, a student activity fee of \$3.50. These fees entitle the student to admission to all the regularly scheduled athletic and forensic contests of the year; the use of the gymnasium at specified times; subscription to the college newspaper, "The Record"; admission to all Lyceum entertainments; one copy of the college year book, "The Highlander." Activity fees are not refunded.

In most of the science classes laboratory fees are charged, the amounts of which are listed under the descriptions of the subjects. These fees are payable at the beginning of the semester and are not refunded.

All graduates pay a fee of \$3.00, which covers the cost of diploma, and cap and gown rental.

MUSIC

The fee for private lessons in piano or voice is \$9.00 per semester for one thirty-minute period a week, or \$18.00 a semester for two thirty-minute periods a week, payable at

WICKHAM HALL—DORMITORY FOR YOUNG MEN

MOUNTAIN SCENE NEAR PIKEVILLE

"THE BEARS"—1934 VARSITY BASKETBALL TEAM

registration. Pianos in the dormitories may be rented for practice at \$2.25 per semester, payable at registration. The fee for private lessons on the pipe organ is \$11.25 per semester for one thirty-minute period a week, or \$22.50 for two thirty-minute periods a week, payable at registration. The pipe organ fee includes use of the pipe organ for practice at assigned periods. Private lessons which are missed due to the absence of the pupil are not made up, except when arrangement has been made with the instructor before the absence. No private lessons are given on holidays or during vacations. Music fees are not refunded except when the pupil is compelled to be absent for two weeks or more on account of illness, in which case a pro rata refund is made.

Pupils who wish to take private lessons in piano, pipe organ or voice, without paying the semester fee in advance, are charged at the rate of 60 cents per thirty-minute lesson for piano or voice, and 75 cents per thirty-minute lesson for pipe organ, payable in advance.

ROOMS

Rooms in the Derriana, the dormitory for young ladies, are for two students; the rent is \$15.00 or \$18.00 per semester for each student, depending on the desirability of the rooms.

Rooms in Wickham Hall, the dormitory for young men, are for two students; the rent is \$15.00 or \$18.00 per semester for each student, depending on the desirability of the rooms.

Room rent is payable at the beginning of each semester and is not refunded.

Each student rooming in the dormitories must furnish four sheets, a pair of cotton blankets, six towels and two pillow slips, made for pillows 19x27 inches. On entering the dormitory the student pays to the matron \$1.00 for blankets and room key. Fifty cents of this fee for the laundering of the blanket; the remaining fifty cents is refunded when the key is returned.

Rooms may be reserved before the opening of the semester by making a deposit of \$5.00 with the Secretary. This reservation fee will not be refunded, but will be deducted from the room rent payable at registration.

MEALS

All students living in the dormitories are required to board at the College Cafeteria, where plain, nourishing food is furnished at actual cost. A meal ticket may be purchased for \$3.50, entitling the student to meals to the amount of \$3.75. Such a ticket is sufficient for one week's board for the average person. Dormitory students failing to board at the Cafeteria are required to leave the dormitory, without refund of room rent.

TEXTBOOKS

A student book store, in which used textbooks are purchased and sold, is operated on the main floor of the Administration Building. Students may save money by the purchase of used textbooks, and by the sale of books after the completion of the courses.

SUMMARY OF EXPENSES

Following are estimates of the expenses for one semester in each department:

Junior College

Tuition	\$ 37.50
Student activity fee	3.50
Room	15.00
Laboratory fee (average)	3.00
Books (estimated)	12.00
Board (estimated)	60.00

ESTIMATED TOTAL FOR ONE SEMESTER.....\$131.00

High School

Tuition	\$ 16.00
Room	15.00
Laboratory fee (average)	2.00
Books (estimated)	10.00
Board (estimated)	60.00

ESTIMATED TOTAL FOR ONE SEMESTER.....\$103.00

SELF-SUPPORT

There are opportunities for a number of students to support themselves partially while in school. Several boys and girls can be supplied with work at the cafeteria, for which they receive an allowance on their fees. A few boys are employed in doing janitor work, and that way make part of their expenses. There are also some openings for boys to work in town. They will be permitted to do this as long as it does not interfere with their school duties.
